

Getting to Know Your MediaBook

There are two swing videos - Face View and Down the Line View. Switch back and forth by selecting from the drop down menu. Your Drill MediaBook will have 3-5 drill videos.

Choose your national flag to change the language if needed.

The Video Player has two functions. One is to play your swing videos and the other is to display the key positions.

Click here to view video in full screen.

Press the large arrow to play the video.

Click this icon to hear my audio comments.

My comments on each key position will be displayed in the comment box.

Hit the scroll arrow to view longer comments.

Click the scroll arrows to display the next key position.

Key Positions - there will be up to 9 positions.

Note: You can view all key positions at once in the Slideshow View. See next page.

Slow - Motion
Click and hold the double arrows. Once the video starts playing, release and then left click on and off to play the video one frame at a time. Experiment with the speed of the clicking.

Zooming In on Your Video
Right click in the video screen and select Zoom In from the menu.
Repeat and select Zoom Out to go back to normal size.

See next page for printing instructions....

Getting to Know Your MediaBook

Each MediaBook has two different views. An Analysis View and a Slideshow View. The Analysis View is displayed just below.

To switch to the Slideshow View - click the Slideshow View tab located next to the Analysis View tab.

View all key positions at once when you click on the Slideshow View tab.

Slideshow View

You can choose 2, 4, or 9 pictures to display and print in the Slideshow View.

In the Slideshow View you will have the ability to print out all key positions. Select the print icon to display the print preview.

Print Preview

Click the print icon to print out the analysis.

Select the font size for the comments from the print preview screen

Print out these instruction for reference while viewing your MediaBooks.
